## Art Rack Mobile Storage System

Art Rack Mobile Storage Systems are designed to safely and securely store precious art work while creating more storage space by compacting storage and eliminating fixed aisles. Our unique product configuration uses highquality art rack grid panels in conjunction with our most popular mobile carriage system, the Mechanical-Assist Flat Track Carriage System. The art rack mobile storage systems will not only increase storage capacity but it will also optimize organization and productivity.

All wheel channels driven. (2) heavy duty flange bearings secure flange wheel in channel. Extruded wheel channel designed to be at each shelving upright.

Drive Box assembly pre-assembled at factory - 2 bolt assembly in field. Ergonomic handle with locking detent. Key lock is optional.

> Aluminum Extrusion side members 3-3/8" x 2".

- The double-flanged, 3-1/2" diam. heavy duty mechanical steel wheel assemblies designed to run on 3/4" wide flat track.
