

## Shelving Solutions

**Rivet Style Shelving** combines easy assembly with structural integrity. The positive rivet connection is joined with 14-gauge angle post to create a rigid framework ideal for high density shelving. The two-way keyhole slots and snap-in rivet design provide for simple installation. There are no clips, braces or additional hardware needed. Various shelf decking options include particle board, metal, circle perforated metal and wire grid. The shelves can be adjusted in 1-1/2" increments for optimum flexibility. The rivet shelving parts are available in a wide variety sizes to fit specific storage requirements. Rivet Style Shelving has a weight capacity of 375 - 600 lbs. per shelf (depending on size).

## Shelf Decking Options

**Particle Board**  
5/8" Thick

**Metal**  
22-Gauge

**Wire Grid**  
2" x 4" or 1" x 4" Openings

**Circle Perforated**  
22-Gauge  
50+% Open

## Shelving Solutions

**Tab Style Shelving** enhances any area with superior design and product quality. The "Box" form creates incredible durability and the epoxy coating minimizes sharp edges and provides an attractive, smooth finish. This shelving system is comprised of two 16-gauge uprights with tabs for mounting shelves and accessories. 18-gauge metal spreaders are riveted to the uprights creating a rigid framework. The metal "Box" shelves are constructed of 22-gauge steel allowing for a weight capacity of 375 lbs. per shelf. Shelves are simply inserted into tabs on uprights without any additional hardware or clips making for easy assembly and relocation of this shelving. Standard paint finish is sand but gray is also available.

### Available Sizes:

Height - 1' increments

Length - 36", 42, 48",

Depth - 12", 14", 16", 18", 24"
